### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### *Election/Restrictions*

Restriction to one of the following inventions is required under 35 U.S.C. 121:

Claims 1- 8 are drawn to a method of inhibiting HBV attachment by exposing the  
a hepatic cell to a urine derived protein; claims 1 and 2 are generic.

Claims 3- 8 require a specific SEQ ID#.

Applicant must elect one sequence from those recited in the claims for  
examination: SEQ ID#s 1, 3- 5, and encoded by a nucleotide that is  
hybridizable with SEQ ID# 3.

The use of each different sequence in the method is a different invention.

The inventions are distinct, each from the other because of the following reasons:

The claims of Group I are drawn to multiple sequences. Each of the different sequences are independent and distinct inventions because no common structural or functional properties are shared. Accordingly, these sequences are each subject to restriction under 35 U.S.C. 121. Regardless of the Group elected, **Applicant is additionally required to elected a single sequence, which if determined to be patentable, would also be patentably distinct from other sequences.** This requirement is made under 1192 O.G. 68 Notice (November 19, 1996), as examination of more than one sequence in one application would result in an undue burden on the PTO. Failure to elect a specific sequence will be considered to be a non-responsive reply. This is not a species election.

Because these inventions are distinct for the reasons given above and the search required for one sequence does not overlap with the search for other sequences, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Myron G. Hill whose telephone number is 571-272-0901. The examiner can normally be reached on 9am-6pm Mon-Fri.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, James Housel can be reached on 571-272-0902. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
